

# The 6-Series, Re-engineered.

Built Lighter. Built Smarter. Two Power Systems.

**NexStar EHC-6**

**NexStar HC-6**

### 60 Fewer Components

Simpler to service and diagnose.

### More Payload on Every Truck

Lighter crane means more payload capacity.

### Available in Two Power Systems

Hydraulic or electric/hydraulic. Your operation. Your choice.

The Intelligent Force Behind  
Every Lift, Pull and Rotation

## NexStar HC-6 | Hydraulic

The crane your fleet already relies on — made significantly better.

### Key Specifications

Max Capacity: 6,000 lb

Crane Weight: 1,200 lb (200+ lb lighter than previous)

Reach: 20'3" extended

Rating: 36,000 ft-lb

Power: Hydraulic

Components: 60 fewer than previous model

### Features

- ✓ Stronger than the previous model
- ✓ Lighter materials, expanded capacity
- ✓ NexStar proportional control, plain-English diagnostics
- ✓ Overload protection, level sensing, automatic stop at 100% load

**Both cranes conform to your body spec. Talk to your dealer about fitting the 6-Series to your operation.**

## NexStar EHC-6 | Electric/ Hydraulic

Electric/Hydraulic. Full 6-Series performance. Re-engineered.

### Key Specifications

Max Capacity: 6,000 lb

Crane Weight: 1,210 lb (400+ lb lighter than previous)

Reach: 20'4" extended

Rating: 36,000 ft-lb

Power: Electric/Hydraulic

Components: 60 fewer than previous model

### Features

- ✓ Minimal noise on the job site. No separate engine required to operate the crane
- ✓ NexStar wireless remote with rechargeable battery and quick charging
- ✓ Ideal for urban corridors and regulated environments
- ✓ NexStar proportional control, plain-English diagnostics
- ✓ Overload protection, level sensing, automatic stop at 100% load
